## Volume 41

- Acarbose ( $\alpha$ -glucosidase inhibitor), 511
- N-Acetylneuraminic acid (NANA), in human milk oligosaccharides and glycoproteins, 720
- Acids. *See also specific acids*
- N-acetylneuraminic, 720
  - amino, 73, 1077
  - arachidonic, 765
  - ascorbic, 665
  - bile, 1289
  - fatty, 765, 787
    - essential, 1054
    - free, 994
  - linoleic, 765, 1054
  - otic, 605
  - pantothenic, 578
- Adenosine monophosphate, cyclic (cAMP), -mediated jejunal secretion in lactose-fed malnourished rats, 1265
- Adipose cell. *See* Fat cell
- Age/aging
- dietary habits and prediction of life span (rat), 1332
  - and non-insulin-dependent diabetes, 776
  - RDA and, 149
- Alcohol ingestion
- blood pressure and, 1299
  - diet and, 623
  - diet and health status and, 356
  - hepatic superoxide dismutase activity and (monkey), 929
  - North American survey, 312
- Alfalfa, intestinal adaptation to (rat), 1249
- Alkaline phosphatase
- serum levels, zinc deficiency and, 1214
  - vitamin D-related activity of, in elderly Irish people, 101
- Amino acid(s)
- deficiency, for malignant melanoma, 73
  - in wheat proteins, 1077
- Amylase, dietary fiber and, 517
- Anemia, microcytic, in infants, tea drinking and, 1210
- Anorexia nervosa, vitamin E, vitamin A, and essential fatty acid status, 1054
- Anthropology, weaning, 497
- Anthropometry, protein-sparing effects of protein sparing modified fast, 540
- Antibody formation, in iron deficiency (rats), 278
- Antipyrene clearance, in malnourished patients, 1257
- Apolipoproteins, circadian rhythms. TPN and enteral nutrition and, 727
- Appetite, on protein sparing modified fast vs protein formula liquid diet, 533
- Arachidonic acid, in breast milk, 765
- Ascorbate (vitamin C)
- metabolism, and CO<sub>2</sub> formation, 609
  - in stored human milk, 235
- Ascorbic acid, dietary, during lactation, 665
- Aspartate aminotransferase, red cell, and pyridoxine status of Thai preschoolers, 770
- Asthma, bronchial, pyridoxal phosphate levels in, 684
- Australian Aborigine, lactose malabsorption in, 620
- Beans, colonic function and, 909
- Behavior therapy, in obesity, 821
- Bile, flow and composition, TPN and (rat), 1283
- Bile acids, output in Tarahumara Indians on high-cholesterol diet, 1289
- Biliary cirrhosis, chronic, vitamin E deficiency in, 66
- Bioavailability, of micronutrients, 1091
- Biopterin, in milk and infant formulas, 110
- Blood pressure
- calcium intake and, 52, 1299
  - dietary changes and, 1155
  - dietary wheat fiber and, 1103
  - potassium, calcium, and alcohol intake and, 1299
- Body composition
- fat-free mass, assessment using bioelectric impedance measurements, 810
  - potassium, bioelectric impedance measurement, 810
  - during pregnancy, nutrition and (rat), 979
  - water
    - bioelectric impedance measurements, 810
    - deuterium oxide test, 363
    - H<sub>2</sub><sup>18</sup>O dilution test (piglets), 801
- Body weight. *See* Weight
- Bone, hardness of, fluorides and, 129
- Bone density, mid-radius, in postmenopausal females, 1045
- Bone disease, metabolic, cyclic TPN and, 614
- Bone loss in postmenopausal females
- correlates of mid-radius bone density, 1045
  - milk supplements and, 254
- Book reviews
- Mechanism of intestinal electrolyte transport and regulation by calcium, Mark Donowitz and Geoffrey WG Sharp, 1345
  - Nutrition and behavior, Janina Galler (ed), 377
- Bowel function, dietary wheat fiber and, 1103
- Breast milk
- biopterin and neopterin content, 110
  - casein content, 113
  - fat composition, in vegetarians and nonvegetarians, 787
  - fatty acid composition
    - in Chinese, Malay, and Indian mothers, 765
    - in vegetarians and nonvegetarians, 787
  - folate nutrition, 590

Abstracts submitted to the 25th Annual Meeting of the AJCN were published on pages 836-880 of the April issue of AJCN. Authors and subjects are not indexed here.
